Describe Cause of Problem and Remedial Action Taken.*

A broken water pump coupling caused the water tanks to spill 40 bbls of oil and 100 bbls of produced water onto the ground. A vacuum truck recovered 100 bbls of fluids and the coupling was replaced.

Describe Area Affected and Cleanup Action Taken.*

The affected area is approximately 100' x 45' with most of the leak staying on location. Remediation will be completed in accordance with a remediation plan approved by NMOCD and the BLM.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
