13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex Energy Co respectfully request permission to add a compressor station to the White City 8 Federal 2 location. It will be our Buffalo Compressor Station. At this time our current gas lines are at capacity and this compressor station will allow for more gas production. We would like to set two 3516 compressors on the North side of the pad which will be used to elevate the pressure of the produced gas stream and provide gas lift to several Cimarex White City wells and Chevron's Hayhurst wells.

We request permission to set 2 500 bbl oil tanks on the West side of the pad to capture the condensate from the compressors.

Gas pipelines submitted on separate sundry.
