13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operations results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ACID JOB OF 9-20-05 HAS NOT REESTABLISHED COMMERCIAL PRODUCTION.

We will pump well until the end of the month, if production is still non-commercial we will:

Run a casing scraper to clean the casing to run logs.

We will have Schlumberg run NGT logs to evaluate the Seven Rivers and Yates formation.

Logs will be evaluated, we will then P&A or set CIBP at 1810' and proceed to perforate upper zone. Perforations and acidizing procedure would follow.

I hereby certify that the foregoing is true and correct
