

Subject: Stevens Operating Corp

30-005-62661

There are 2 SWDs that are not on the inactive list:

O'Brien C #9 05-62661

W. White Ranch #2 05-10094

I looked in the well files and see no indication of activity. Stevens is still shown as operator. On W. White Ranch there is a letter dated 10/2/00 revoking injection authority.

Please prepare plugging procedures for these wells also, as they seem to be inactive, unless you know something I don't
