13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This sundry is to communicate a slight change in the flowline route from this well pad to the tank battery. The flowline route will now come out of the SE corner of the well pad and not the SW as previously planned.

This well-pad includes Ross Draw 8 Fed 4H, 7H, & 8H.

New route sketch attached.

14. I hereby certify that the foregoing is true and correct.
