13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Devon is requesting to re-purpose the Cotton Draw MDP 2 CTB 25-1 from a central tank battery to a gas compressor site location.

The location will not increase in size and no additional surface disturbance is required at this time for this conversion.

Current road location will remain the same.

Current electric connection will remain the same.

The gas battery connection as shown in plat remains the same and will be used to connect the compressor to the Cotton Draw MDP 2 Primary Lateral Gas pipeline.
