13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Mack Energy Corporation is requesting approval to add an additional gas sales meter to our Gas gathering system, current meter located in Sec. 4 T16S R29E. All requirements and testing procedures will remain the same as previously approved. This meter will enable gas to be sold at either/or both locations. This should prevent any gas venting should either purchaser have pipeline issues, it also insures capacity for future development. The additional sales meter will be located in the SESW Sec. 22 T15S R29E.
