	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	Change to Original APD
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Chevron respectfully requests the ability to change the cement details for the upcoming production cement job planned to be performed on this well.

A sundry was approved 3/8/19 to change the target formations, the submitted cement details did not reflect our current plan that is aligned with what other wells for these same targets are pumping.

Summary of Changes to APD Submission

Chevron respectfully requests the ability to change the cement details for the upcoming production cement job planned to be performed on this well. When this well was previously sundried to change the target formations, the submitted cement details did not reflect our current plan that is aligned with what other wells for these same targets are pumping.

Cicada Unit 22H
