Re: Application of EOG Resources, Inc. for administrative approval of the simultaneous dedication of the N/2 of Section 12, Township 16 South, Range 24 East, N.M.P.M., Eddy County, New Mexico to its proposed San Saba A 12 Fee Well No. 1H and the existing San Saba A 12 Fee Well No. 2H.

Dear Mr. Fesmire:

EOG Resources, Inc. is the operator of a standard 320-acre spacing unit in the Cottonwood Creek; WC, West (Gas) Pool (Pool Code 75260) comprised of the N/2 of Section 12, Township 16 South, Range 24 East, N.M.P.M., Eddy County, New Mexico. This spacing unit is dedicated to EOG's San Saba A 12 Fee Well No. 2H which has been horizontally drilled and produces from the Wolfcamp formation.

EOG seeks administrative approval of the simultaneous dedication of this standard 320-acre gas spacing unit to the following two horizontal gas wells:

- A. the existing San Saba A 12 Fee Well No. 2H (**API No. 30-015-34479**) horizontally drilled from a surface location 660 feet from the East line and 1805 feet from the North line to a bottomhole location in the Wolfcamp formation 660 feet from the West line and 1880 feet from the North line of said Section 12; and
- B. the proposed San Saba A 12 Fee Well No. 1H (**API No. 30-015-34476**) to be horizontally drilled from a surface location 760 feet from the North line and 660 feet from the East line to a proposed end point or bottomhole location 760 feet from the North line and 660 feet from the West line of said Section 12.

HOLLAND & HART LLP

The wellbore directional survey of the existing San Saba A 12 Fee Well No. 2H has been filed with the Division and shows the path of the wellbore within the Wolfcamp formation to be standard pursuant to Division Rules 104.C (2) (a) and 111.A (7). EOG now intends to horizontally drill and complete its proposed San Saba A 12 Fee Well No. 1H in such a manner that its path meets the set-back requirements of Division Rules 104.C (2) (b) and 111.A (7) for deep gas wells in southeast New Mexico. The well will be drilled to the targeted subsurface end-point or bottomhole location, 760 feet from the North line and 660 feet from the West line (Unit D) of Section 12.

Attached hereto as **Exhibit A** is a copy of Division Form C-102 for this well that shows the proposed surface and bottomhole location of the well. **Exhibit B** is EOG's Planning Report for the well that confirms the projected wellbore deviation.

The simultaneous dedication of the N/2 of said Section 12 to the San Saba A 12 Fee Well Nos. 1H and 2H will afford EOG the opportunity to efficiently produce the Wolfcamp formation under this spacing unit. EOG's proposed simultaneous dedication of these wells does not exceed the number of wells allowed by Division Rule for this spacing unit nor will either well be closer to the outer boundary of the horizontal well project area than permitted by Division Rules. Accordingly, there are no other interest owners who are affected by this application.

Your attention to this application is appreciated.

Sincerely,

Ocean Munds-Dry
Attorney for EOG Resources, Inc.
