• **Comments:**

Mr. Arrant:

Faxed with this cover letter is the subject form requesting a test allowable for the Morrow zone currently perfed in this well. BOLD is currently in the middle of this completion and has had mechanical problems (lost fish in hole) and is waiting on a Coiled Tubing Unit to recover the fish and then continue the completion program. While waiting on equipment the well has been connected to the gas sales line and the current perfs are being cleaned up by flowing up the casing. At the initial condensate rate, BOLD has limited tank battery room and seeks approval to transport and sell the condensate as early as possible.

If you approve this request, please call me at the above listed cell number so that we can contact the transporter and schedule the first condensate sales.

Thanks,

*Dan Dodd*
