Dear Mr. Yaney,

In regards to the above, the New Mexico Oil Conservation Division (NMOCD) has not received a complete set of electric logs run for each well. In addition, NMOCD is also lacking the Bureau of Land Managements' regulatory reports following the setting of casing on 11/12/01 for the Bennett Ranch Unit 25 #1. This particular well should have reports such as a well completion report, notarized deviation survey and other regulatory reports required by the BLM.

Please refer to the NMOCD's Rules and Regulations 1105.A., 111 and 1128.A.

Rule 1128.A. pertains to regulatory forms required by the NMOCD on Federal lands.

Failure to comply with NMOCD's Rules and Regulations in this matter may result in civil penalties being imposed.

Please call our office if you have any questions.

Respectfully yours,

Bryan G. Arrant
