Dear Mr. Wagner or To Whom It May Concern,

As of this date, The New Mexico Oil Conservation Division (NMOCD) has not received the complete set of electric logs and regulatory reports after a spud notice dated 5/13/2005.

Please refer to numerous NMOCD's rules that EOG Resources, Inc. is non compliant with, for example NMOCD's Rules: 19.15.1.12; 19.15.1.14; 19.15.3.111; 19.15.13.1103 & 1105(A).

In my conversation with you on or about 10/13/2006, this well was never completed for production.

However, it is my understanding that this well has been either abandoned or plugged sometime last year.

Please submit the required documents no later than 10/27/2006.

Yours truly,

Bryan G. Arrant  
District II Geologist
