13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

In reference to violation #0206 62, Chesapeake has performed a Step Rate Test on this well and has attached a copy for your review. This well is currently permitted for 916# of surface pressure. Chesapeake, respectfully, request an increase in permitted surface pressure to 2000# with a maximum rate of 5000 BWPD. The test indicates there is no fracture occurring down-hole at pressures in excess of 3000# at the surface. The surface pressure Chesapeake sees is a result of friction as the well is equipped with 2-3/8" lined tubing.

Informed to resubmit to OCP.
