A pit closure C-144 was approved on 11-29-2006 to close the reserve pit for the well. A second pit registration form was filed to open a frac pit in the location of the drilling pit after it was closed. The pit permit does not appear to have been approved as it was not scanned in on the NMOCD web site. The original drilling pit was not closed at that time and no frac pit was constructed. The drilling pit will now be closed as per the original approved C-144 pit closure and the second pit permit will not be utilized. If the second pit permit was approved it is requested that the permit be canceled.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
