RE: Request for Closure LOV No. 020307

30-005-62701

On February 15, 2007, we excavated samples for the pit delineation referred to in LOV No. 020307. Four samples were taken: 1) on the surface, in the middle of the pit, 2) depth of 1 foot, 3) depth of 2 feet and 4) depth of 4 feet. The samples are labeled 0, 1, 2, and 4 as shown on the lab report and chain of custody.

We received the analytical from the Cardinal Laboratories today, and the results for each test were significantly less than the remediation criteria for the site (total ranking score of 10 points). We are requesting immediate closure of the pit based on the attached analytical results. We plan on backfilling the pit for closure.

If you require additional assistance, please contact me via phone (888) 414-3320 or email (gcooley@lotusllc.com).

Regards,

Geri Cooley, MS, REM, CSP
Regulatory Affairs & HES Manager / Corporate RSO
Lotus, LLC (For Snow Oil & Gas, Inc.)
