Subject: RE: BEPCO, L.P's-Remuda Basin 24 State Well nos: 4,6 & 7.

Bryan,

I have attached the new letter from Mosaic Potash Carlsbad, Inc. for the subject wells. It was approved before the extensions expired. Do I need to resubmit APDs or will the sundry's that I have submitted still be in force. Let me know which way I need to go. Thanks for your help.

Annette

Subject: RE: BEPCO, L.P's-Remuda Basin 24 State Well nos: 4,6 & 7.

Good Morning Annette,
 I found another request for extension that came in yesterday, that applies similarly.
 It is the Remuda Basin 24 State # 8, API # 30-015-34656.
 Thank you,
 Bryan

Subject: BEPCO, L.P's-Remuda Basin 24 State Well nos: 4,6 & 7.

Dear Annette Childers or to Whom It May Concern:

In regards to the above noted applications to drill (APDs) for the Remuda Basin 24 State # 4,6 & 7 and your request to extend the permits another 12 months,
 please see the attached letter from Mosaic Potash Carlsbad, Inc. (Mosaic).
 In the text of their letter, Mosaic states:
 ".....Therefore, please consider this "no objection" to this location to be valid for one year only.....".
 Since this letter is dated back on December 29, 2005, I cannot approve your request to extend the noted APDs, until BEPCO, L.P. applies to Mosaic for and receives a new waiver as instructed in the letter.
 For further information regarding this matter, please refer to R-111-P, Section IV.: Location of Wells and Notice to Potash Leases.
 Also, please note that new APDs will be required after the expiration date of approval has expired.

Respectfully yours,

Bryan G. Arrant

Dear Mr. Glasscock:

In response to your telephone request for an update of our position on certain APD's, here is an update of our 12/29/2005 reply. We are in receipt of your request dated 12/20/2005 concerning 5 well locations in Section 24, T-23-S, R-29-E. Mosaic Potash Carlsbad Inc. does have a potash lease $\frac{1}{4}$ mile from the northwest corner of this section.

All locations requested (Remuda Basin 24 State #4 thru #8, in units A, B, G, H, and I) are further than $\frac{1}{4}$ mile from our LMR. However, all but #7 are located in measured ore as delineated by the BLM. This ore is economically mineable but not currently in the mine plan, several oil wells have already been drilled in the area. Mosaic Potash does not object to drilling at these locations.

As more information becomes available, our estimates of the extent of potash resources in any given area may change. Therefore, please consider this "no objection" to this location to be valid for one year only. If you are still considering this well location at a date later than one year from today, notify us again at that time so we can make the decision on information current at that time. Do not consider a "no objection offered" or an "objection offered" decision to be permanent.

Mosaic Potash submits this letter in lieu of the forms requested.

Sincerely,

Dan Morehouse
Mine Engineering Superintendent
