The approved permit TD is 4000' in the Empire; Yeso Pool.

COG Operating LLC respectfully requests permission to drill this well  
to 5500' in the Empire; Yeso Pool.  
5-1/2" would be set @ approximately 5500'.

We don't plan to mud log this well, therefore it is hard to know for sure exactly where the top of the Tubb begins. We are wanting to drill through the Tubb in order to be sure we have all of the Blinbry open. We do not intend to produce or test the Tubb. It will be a Paddock and Blinbry (Yeso reservoir) test. We are just trying to give ourselves a little room so we make certain we get through all of the Yeso

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☒ a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
