13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Subject: RE: NMOCD Inspection Detail - Parke Fed & Price Fed (scanned to you two and Al yesterday)

Send whatever is needed to keep us out of a bind. Do we need well bore diagrams? If so, Matt F. can do them.

Subject: NMOCD Inspection Detail - Parke Fed & Price Fed (scanned to you two and Al yesterday)

NM SI Listing:

Parke Fed #1	6/1/2005	Needs to be CO & restimulated
Parke Fed #3	4/1/2004	Bad csg - fix or P&A?
Price Fed #1	3/1/2003	Fix or P&A

Per Al this a.m. in his words:

Parke F #1 – was uneconomical and simply SI – possible clean out needed and old junk in hole
 Parke F #3 – collapsed csg
 Price Fed #1 – smaller than 40 unit cratered and still on location – did not have another replacement and SI well due to production less than ½ BOPD.

We have exceeded the violation letter deadline of 6/14/07 to have a written corrective action submitted. I'm afraid I did not have this on the weekly update, but have added now. Please let me know what you wish for me to prepare. Thank you.

INSTRUCTIONS

General: This form is designed for submitting a complete and correct well completion report and log on all types of lands and leases to either a Federal agency or a State agency, or both, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State agency. See instructions on items 22 and 24 and 38, below regarding separate reports for separate completions.

It is to be filed prior to the time this summary record is submitted, copies of all currently available logs (drillers, geologists, sample and core analysis, all types electric, etc.), formation and pressure tests, and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. All attachments should be listed on this form, see item 33.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 18: Indicate which elevation is used as reference (where shown) for depth measurements given in other spaces on this form and in any attachments.

Items 22 and 24: If this well is completed for separate production from more than one interval zone (multiple completion), so state in item 22, and in item 24 show the producing interval, or intervals, top(s) and bottom(s) and name(s) if any. Submit a separate report (page) on this form, adequately identified, for each additional interval to be separately produced, showing all data pertinent to such interval.

Item 29: "Sacks Cement": Attached supplemental records for this item should show the details of any multiple stage cementing and the location of the cementing tool.

Item 33: Submit a separate completion report on this form for each stage to be separately produced. (See instruction for items 22 and 24 above.)

37. SUMMARY OF POROUS ZONES:

SHOW ALL IMPORTANT ZONES OF POROSITY AND CONTENTS THEREOF. CORED INTERVALS; AND ALL DRILL-STEM TESTS, INCLUDING DEPTH INTERVAL TESTED, CUSHION USED, TIME TOOL OPEN, FLOWING AND SHUT-IN PRESSURES, AND RECOVERIES

FORMATION	TOP	DESCRIPTION, CONTENTS, ETC.
Looco Hills	2730'	1-10'
Metex	2845'	13-14'
