13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation wishes to amend the surface use plan for the captioned with a changes to the directions to the well location, pad layout and topographic map.

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

Yates Petroleum Corporation

Corral Draw AQH Federal #6

2310 FSL & 2310' FWL

Section 13-T24S-R29E

Eddy County, New Mexico

This plan is submitted with Form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of the surface disturbance involved and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effect associated with the operations.

1. EXISTING ROADS:

Exhibit A is a portion of the BLM map showing the well and roads in the vicinity of the proposed location. The proposed wellsite is located approximately 36 miles east of Malaga, New Mexico and the access route to the location is indicated in red and green on Exhibit A.

DIRECTIONS:

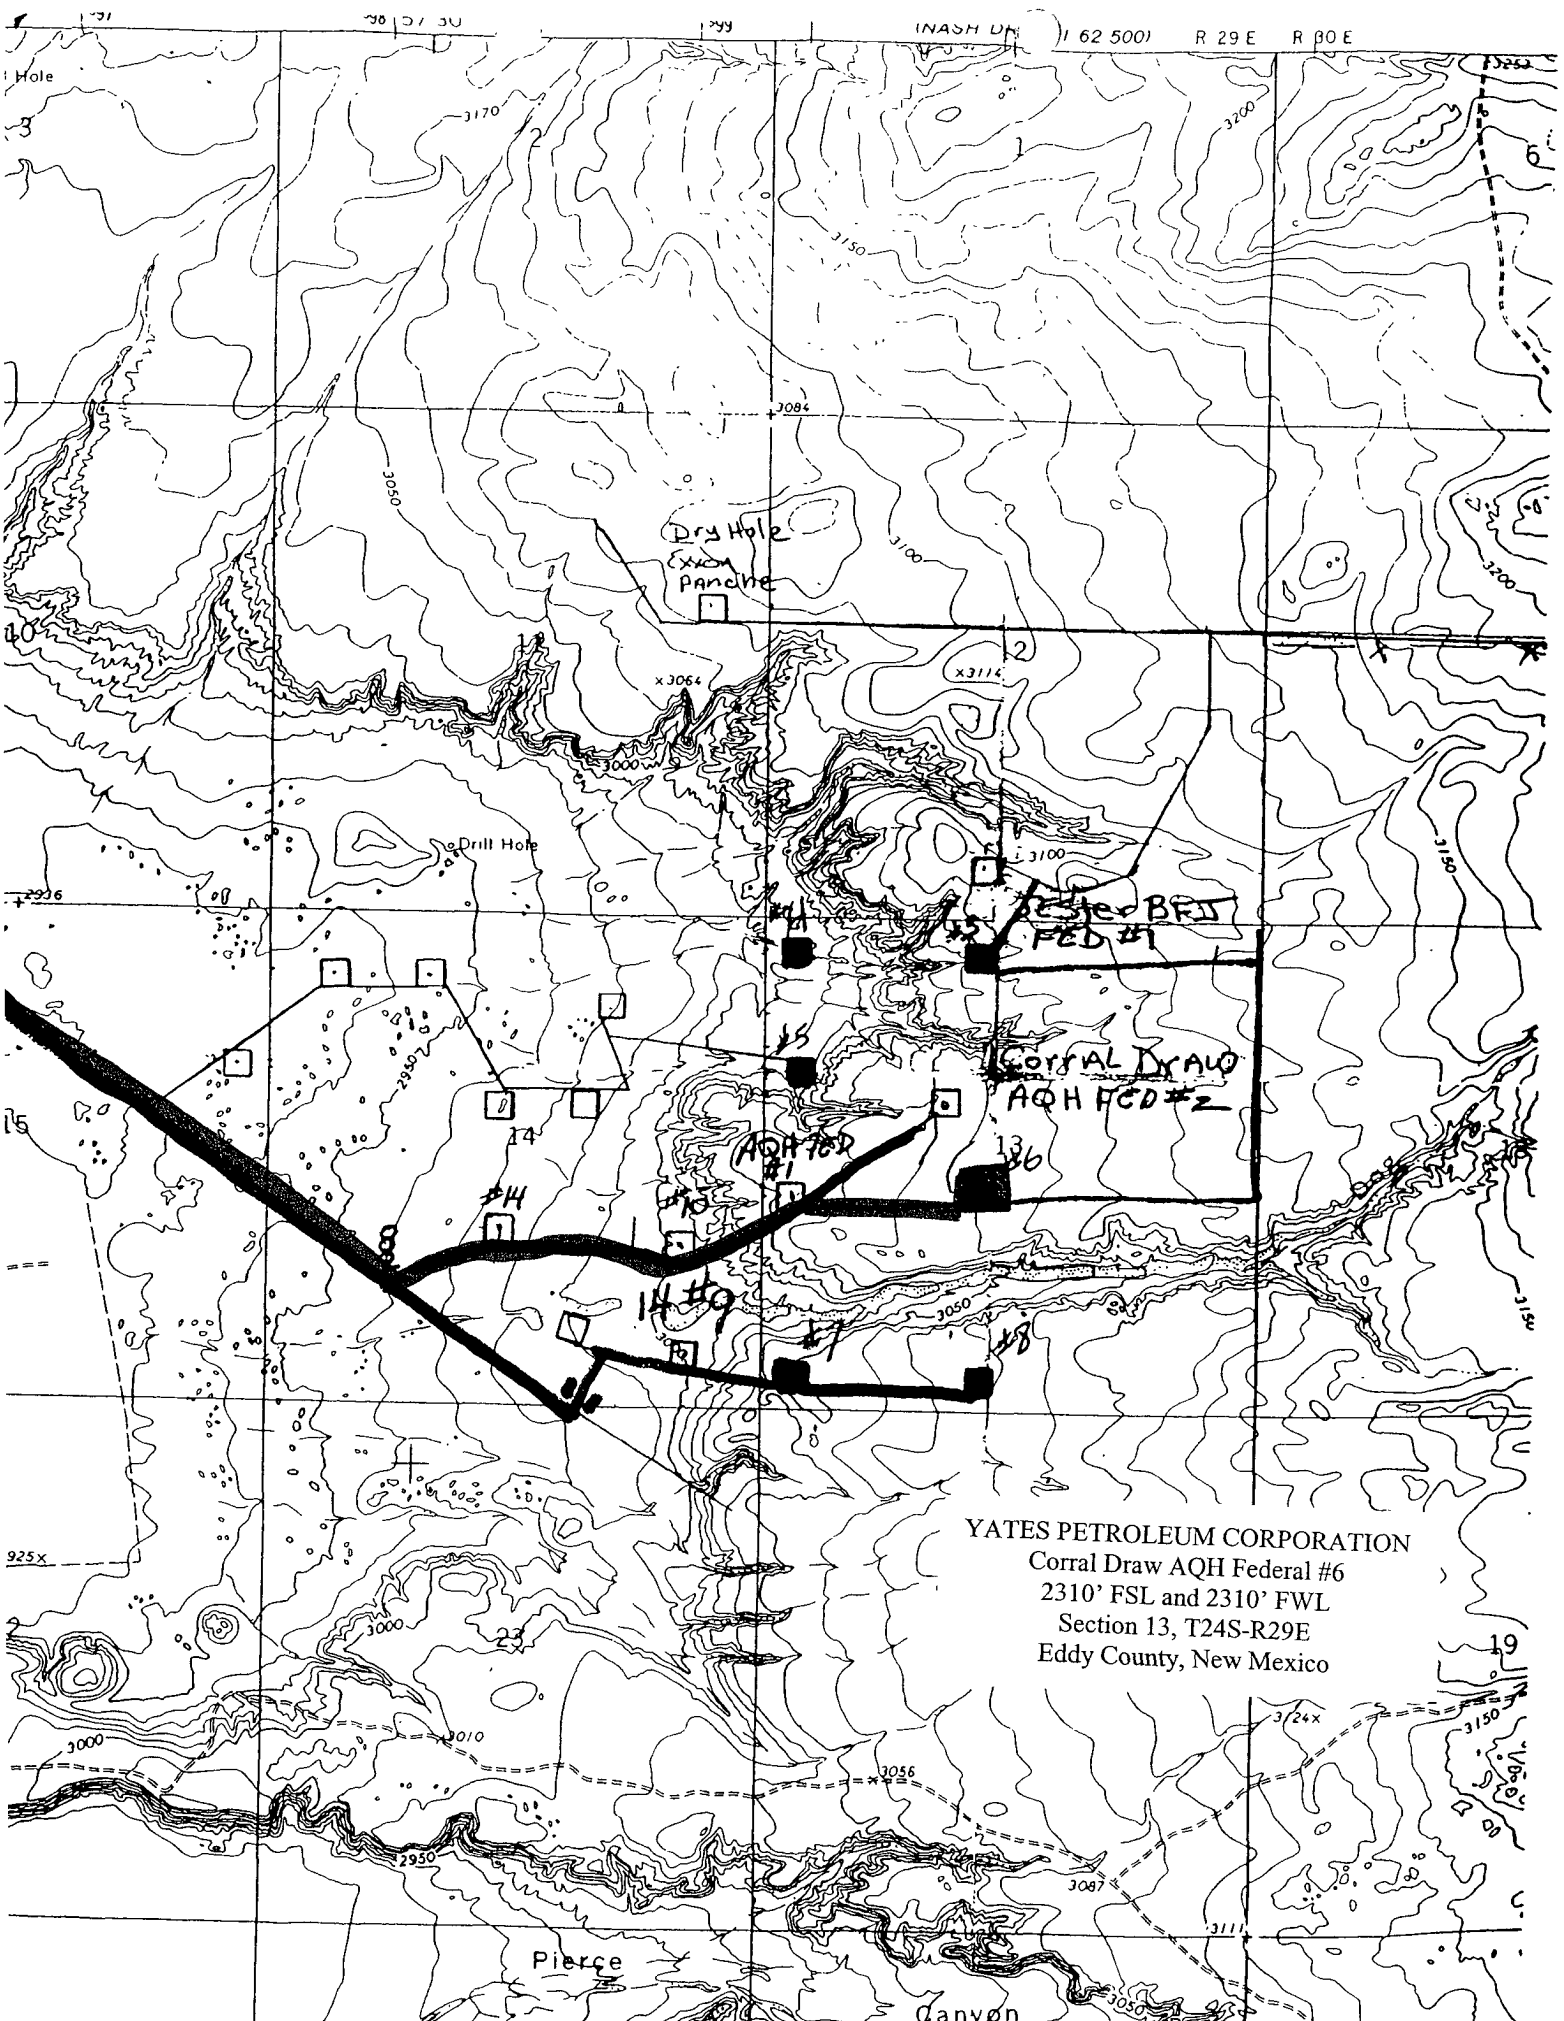

Go east of Malaga, New Mexico on Duarte Road (CR-720) for .7 of a mile to Harroun Road (CR-745). Turn left on Harroun Road and go approx. 2.9 miles to Dog Town Road (CR-788). Turn right on Dog Town Road and go approx. 1.1 miles. Turn left here on caliche road and go 1.9 miles. Turn left here at a cattleguard and go past dry hole location with tanks on it to one more cattleguard. Turn right at first lease road past cattleguard (Devon Ore Ida Lease sign here) go 1.6 miles to cattleguard and powerpoles on the left. Turn left here and go .8 of a mile to the Corral Draw AQH Federal #1 well location. On the east side of the Corral Draw location the road will fork. Take the right fork on an existing road and go approximately .3 of a mile to the southwest corner of the proposed Corral Draw AQH Federal #6 location. Because of a new lease road being built through the location there will not be any new access road.

2. PLANNED ACCESS ROAD.

- A. There will not be any new access road constructed to this well.
- B. The existing road is built with 14 feet in width (driving surface) and is adequately drained to control runoff and soil erosion.
- C. The existing road is bladed with drainage on both sides. Traffic turnouts may be built.
- D. The route of the road is visible.
- E. Existing roads will be maintained in the same or better condition.

3. LOCATION OF EXISTING WELL

- A. There is drilling activity within a one-mile radius of the wellsite.
- B. Exhibit D shows existing wells within a one-mile radius of the proposed wellsite.
