If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
Water dump on gas separator stuck open allowing gas to enter gun barrel. Gas pressure popped open thief hatch, allowing 4 bbls of condensate to run out on ground inside firewall. Repaired dump valve on gas separator.

Describe Area Affected and Cleanup Action Taken.*
15' X 40' area between gun barrel and stock tank. New Mexico Environmental has taken soil samples in firewall area under supervision of O.C.D.. Waiting on results.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
