13. Describe Proposed or Completed Operation (clearly state all pertinent details, included estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Spudded well on 05-19-08. Encountered lost circulation while drilling hole for conductor pipe. Reached 164' and ran 16" conductor pipe to 105' per BLM suggestion on 05-20-08. Because of change to 16" conductor pipe, surface casing hole size changed from 17½" to 14¾". Drilled 14¾" surface hole to 300.' Tried to get 13¾" casing to 300' (TD) but could not.

Request to change surface and intermediate casing as shown below as a result of hole problems listed above:

Surface Casing: In 14¾" hole, set 11¾" 42# H-40 STC to 355.' Cement as permitted.
Intermediate Casing: In 11" hole, set 8¾" 32# J-55 LTC casing to 2630.' Cement as permitted.
Production Casing: Same as permitted.

*Formation below 8 7/8" to be tested as per original COA.
Surface casing to be set at approximately 300' as per original COA.*

14. I hereby certify that the foregoing is true and correct Name (Printed/Typed) Natalie Krueger		Title Regulatory Analyst
Signature <i>Natalie Krueger</i>		Date May 22, 2008
THIS SPACE FOR FEDERAL OR STATE OFFICE USE
