- 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BEPCO, L. P. wishes to amend the APD approved 8/19/07 to reflect a new production casing design due to an intermediate casing being added to the wellbore because of hole conditions. A string of 4-1/2", 11.6#, HCP110 casing will be ran in place of the 5-1/2" csg approved. The new production casing design will be as follows:

LTC

OH Size	Size	Wt	Grade	Cpl	Setting Depth	Safety Factor Collapse	Safety Factor Burst	Safety Factor Tension	Wt (ppg)
6-1/8"	4-1/2"	11.6	HCP110	LTC	9200'	2.00	2.04	2.61	9.0

The approved cement design will be amended as follows using 50% excess with 500' tie back. Volume to be verified by wireline log.

Interval	Amount Sx	Ft of Fill	Type	Gals	PPG	ft3/sx
Lead 5000'-2800'	150	2200'	Litecrete + additives	7.21	10.2	2.64
Tail 9200'-5000'	264	4200'	Litecrete + additives	9.75	10.5	2.28

Top of cement will be verified by temperature survey.

Operator to provide method of verifying tie-back.

- 14 I hereby certify that the foregoing is true and correct
