13 Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

- 1) Remove caliche from location and approximately 1 mile of access road back to main road. Use the removed caliche to repair and upgrade main road.
- 2) Use material stock pile on the west side of location to cover and contour location. (Do not disturb the pit area.) Contour to match existing terrain with 3' to 5' dunes. Rip and contour road.
- 3) Reseed location and road with 8.00 lbs per acre live seed. Mixture as prescribed in the APD conditions of approval.
- 4) Monitor for one (1) year and review regrowth of vegetation.
