Work plan is attached.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

RE: Empire Abo Unit 191 (L-191) 30-015-00698 O-1-18s-27e Eddy County New Mexico

Mr. Pacheco,

The New Mexico Oil Conservation Division District 2 Office (OCD) is in receipt of a work plan proposal (plan) for finalizing the remediation project at the above referenced well site. The plan was submitted by your agent, Talon/LPE. The plan is approved as submitted with the following conditions:

- Notify the OCD 48 hours prior to installing liner
- Submit a Final Report C-141 upon satisfactory completion of project.
- Like approval by Bureau of Land Management.

Please be advised that this approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, this approval does not relieve the operator of responsibility for compliance with any other state, federal, local laws and/or regulations.

Sincerely,

Mike Bratcher
