13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Per phone conversion between BLM-Wesley Ingram and OXY-Chris Humphreys on 2/20/09, OXY USA WTP LP respectfully requests permission to continue flowing/flaring well until it can be reconnected to pipeline. This will eliminate the possibly of the well going down and being unable to produce again. The volumes will be reported during this interim period. Well tied in to test unit 2/18/09 and flow test well until it was connected to gas sales line on 2/28/09.
