13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Skelly Unit #203
Beneficial Use
BLM Notice of Written Order
August 2009

*DENIED - THIS WELL WAS NOT TESTED
NOR WITNESSED BY THE OCD ON 8/21/09
RI - NMCD
9/3/09*

Forest Oil is requesting TA status on the above mentioned well.

The Skelly Unit #203 is to be utilized for future beneficial purposes. A field study is in progress which will determine the purpose of the wellbore. Current options include conversion to injection to support offset producing wells or conversion to a producing well. The zones targeted for recompletion are the Grayburg and Seven Rivers. It is anticipated that product pricing will allow for an economic conversion or recompletion. The anticipated date of this work is unknown at this time, but the study will continue into the year 2010.

Richard Inge of NM OCD witnessed an MIT Test on 8-21-2009 and has retained the pressure chart.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
