Re: Downhole Completion Reports

Dear Jacqui Reeves:

Attached are downhole completion reports and Form C104s for the wells listed below.

Eagle 34 M Federal 33	Eagle 35 D Federal 6	Eagle 34 E Federal 56
Eagle 34 K Federal 43	Eagle 34 Federal 30	Eagle 34 F Federal 57
Eagle 34 H Federal 55	Eagle 34 H Federal 42	Eagle 34 Federal 34
Eagle 34 Federal 40	Eagle 34 K Federal 44	Eagle 34 G Federal 54
Eagle 34 N Federal 36	Eagle 33 P Federal 16	Eagle 34 A Federal 39
Eagle 34 G Federal 41	Eagle 34 J Federal 29	Eagle 34 L Federal 45
Eagle 34 L Federal 58	Eagle 34 M Federal 35	

We downhole commingled these wells quite some time ago and filed a Sundry Notice, Form 3160-5, to notify the BLM. At the time we filed the paperwork for the downhole commingling with the BLM they only required us to file a sundry notice. The Carlsbad BLM office has now required that we file a Well Completion Report, Form 3160-4. In reviewing our filing we have discovered that the Oil Conservation Division is not recording our production as we have it. We would like to request that your district review these wells to ensure that both zones (Glorieta-Yeso and QN-GB-San Andres) are being recorded. I have attached the previously approved sundry notice, Form 3160-5, for each of the wells listed.

This should meet all filing requirements for a downhole completion. If you have any questions or concerns, please do not hesitate to contact me at (405) 552-8198. Thank you for your patience and assistance.

Sincerely,

Norvella Adams
