12. CHECK APPROPRIATE BOX(ES) TO INDICATE NATURE OF NOTICE, REPORT, OR OTHER DATA

TYPE OF SUBMISSION	TYPE OF ACTION			
☒ Notice of Intent	☐ Acidize	☐ Deepen	☐ Production (Start/Resume)	☐ Water Shut-Off
☐ Subsequent Report	☐ Alter Casing	☐ Fracture Treat	☐ Reclamation	☐ Well Integrity
☐ Final Abandonment Notice	☐ Casing Repair	☐ New Construction	☐ Recomplete	☒ Other
	☐ Change Plans	☐ Plug and Abandon	☐ Temporarily Abandon	
	☐ Convert to Injection	☐ Plug Back	☐ Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

COG Operating LLC respectfully requests permission to change v door on this well

From V door West
To V door East

Reason is due to new power line on West and new pipe line on North.

Onsite inspection revealed that the location was already constructed with topsoil to the east. Location doesn't seem to change the impacts of previously approved well location.

- OK - 4/22/10 Tanner Nygren

14. I hereby certify that the foregoing is true and correct. Electronic Submission #84423 verified by the BLM Well Information System For COG OPERATING LLC, sent to the Carlsbad

Addition to Sundry /Harvard Federal #15

April 22, 2010

Dear Mr. Nygren:

The stockpiled soil that will be used for interim reclamation for the Harvard Federal #15 is currently piled on the east side of the location. Directly to the east is the proposed Harvard Federal #16 well. The stockpiled soil will be spread out and used to reclaim the Harvard Federal #15 well before construction for the Harvard federal #16 well pad begins. In the event that the construction for the Harvard Federal #16 begins before the #15 well is reclaimed, the stock piled soil for the #15 will be move to the south side of the location site.
