Attn: Mr. Thackeray

**RE: Injection Pressure Increase
Parkway Delaware Unit Well No. 601
(API No. 30-015-26433)
Eddy County, New Mexico**

Dear Mr. Thackeray:

Reference is made to your request received in our office on September 3, 2002, to increase the surface injection pressure on the above referenced well. This request is based on a step rate test conducted on the well. We have reviewed the test results and feel an increase in injection pressure on this well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well:

Well and Location	Maximum Surface Injection Pressure
Parkway Delaware Unit Well No. 601	1225 PSIG
Located in Lot 2 of Section 2, Township 20 South, Range 29 East, Eddy County, New Mexico.	

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

Lori Wrotenbery
Director
