13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work.) SEE RULE 1103.

Devon Energy Production Company, LP., request approval to run a 5yr MIT on the referenced well. We wish to TA rather than plug because mechanical problems make it wise to retain all useable well bores, as replacements should active well bores fail. In addition, our intentions are to re-evaluate the field for possible water flood redesign.

The intent to TA must describe the proposed temporary abandonment procedure to be used. No work shall be commenced until approved by the Division and the operator shall give 24 hours notice to the appropriate District office of the Division before work actually begins

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
