Eddy Co., NM
API 015-05842

Dear Sir:

The subject well appears on our operated wells' shut-in list. This well was actually P&A'd 6/2/62 by Patoil Corporation and has remained as such to present date. In 1994, Kaiser-Francis made application & received an approved APD from the Bureau of Land Management to re-enter said well. KFOC, in turn, made application through the NMOCD for a permit to convert to SWD. However, operations were never initiated and our permit expired. It is our request; therefore, that subject well be removed from our shut-in list at your earliest convenience.

Thank you for your cooperation in this matter. If any further information is necessary, please feel free to contact me.

Sincerely,

Charlotte Van Valkenburg
Technical Coordinator

Gentlemen:

Your Application for Permit to Drill (APD), approved June 24, 1994 for the ~~Muse Federal Well No. 1~~ located 659 feet FSL and 660 feet FEL, Section 21, T. 23 S., R. 31 E., Eddy County, New Mexico, Lease No. NM-38464, has expired because drilling has not commenced within one year of the approval date as stated in the General Requirements for Oil and Gas Operations on Federal Leases.

If drilling operations have commenced on the referenced well, please contact this office at (505) 887-6544 and send all necessary reports (spud, casing/cementing, etc., 1 original and 5 copies) so we may correct our records.

If the well has not been spudded, but site construction activities have occurred, please contact this office at the above telephone number for surface reclamation instructions.

If you wish to drill this well at a later date, please submit a complete application (1 original and 5 copies). Since the original APD has expired, the resubmitted APD will be subject to all the processing requirements including the 30-day posting requirement. Please note on the resubmitted APD that it was previously approved and we will review the expired file for information which will help expedite the processing.

Sincerely,
