Subject:

Firecracker St. #2 Battery Spill Immediate notification

Mr. Bratcher,

4-17-32 Houses

Please see below the detailed description of a release that we had on 08/01/2010 at the Firecracker State #2 Tank Battery. We will follow up with a C-141 Initial Report.

Thank you,

Toshua Russo

Subject: Firecracker St. #2 Battery Spill

On 8-1-10 at 9:30am, a spill was discovered at the Firecracker St. #2 Battery. A generator malfunction, in conjunction with an alarm system failure, caused the produced water tank to run over. Approximately 175bbls of produced water was released into the lined dike. All 175bbls were recovered and disposed. Unsalvageable gravel will be removed and replaced. Problems with the generator and alarm system have been corrected and the battery remains in service. Legal description below.
