If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Lightning strike caused a fire and 5 fiberglass tanks burned releasing produced water in a lined battery area. Vacuum trucks were used to recover free fluid.

Describe Area Affected and Cleanup Action Taken.*

906 BBLS of fluid was recovered. Soil removal will be conducted per NMOCD approval and remedial actions and test results will be furnished with the final C-141.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
