Kenneth,

I have approved your application to drill for the above captioned well and I just need to go over a few items with you:

- If in your research of the surrounding area, that it is determined that a H2S contingency plan is NOT required from the drilling of the surface to the T.D. of the well/per Rule 118, please submit a letter stating so.
- On future APDs submitted On-Line, in the 'box' provided, please give a descriptive notation of the drilling program. i.e., the type of cement to be used, type of mud etc.
- Remember OCD's New Rule coming out in mid April on Pits, Below Grade Tanks and Sumps-Rule 50.
- Conditions on the APD are with the approved application.

Thanks, Bryan
