Re: Midwest-O'Brien Well No.1-I,  
Section 28-8-28, Chaves  
County, New Mexico

Gentlemen:

On September 14, 1970, an inspection was made of the site of the subject plugged and abandoned well. Said inspection revealed that all junk had not been cleared from the location and that the dead-man eyebolts had not been cut off, removed or bent down below ground level as required.

Please advise this office when these requirements are completed and the plugging report, Form C-103, will be approved.

Very truly yours,

OIL CONSERVATION COMMISSION
