Re: Sunray-Mid-Continent's Dodd  
wells #13 and #17

Dear Mose:

We are taking Sunray Mid-Continent's Dodd wells #13-P and #17-0 in Sec. 15 T17S R29E out of the Grayburg-Keely pool and putting them into the Grayburg-Jackson. This is being done because Mr. Parry of the office here says that they were plugged back from the Grayburg-Keely to the Grayburg-Jackson zone between the time the original completion was filed and the time the order was written placing them in the Grayburg-Keely. Thought you might wonder what happened to them.

Confusin', ain't it?

Yours very truly,

A handwritten signature in cursive script that reads "Randall".

R. F. Montgomery  
Proration Manager
