Loco Hills, New Mexico December 6, 1962

Well No. 10 is located 660 ft. from [N] line and 1980 ft. from [E] line of sec. 24

NW 1/4 NE 1/4 Section 24 17-9 29-E N.M.P.M.
 (1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Widient Eddy New Mexico
 (Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 3609 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On September 3, 1947 we filled hole with heavy mud to surface, pulled 8 5/8" casing and temporarily abandoned above well.
 It was decided not to complete this well in the Grayburg-Jackson Zone as operator considered the potential value of this well for a deeper test to be greater than that as a probable small producer from the upper zones.
 Well will remain temporarily abandoned pending further deep development in this vicinity.
