17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

1. RU Dresser Atlas wireline and run cement bond log and GR to pick top of cement.
2. Based on CBL, perforate with 4 holes in 2' for cementing.
3. Run tubing and packer to attempt circulation down tubing and out the bradenhead. If circulation is established, cement will be designed accordingly. If no circulation, then the holes will be squeezed. Cementing will be completed to accomplish shutting off the water flow, and try to cover the salt section.

\* Depending on amount of flow run normal log +/- temperature survey

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
