(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.)*

Abo production from this well has declined to less than 5 BOPD
+ 173 BWPD. The well is no longer economical to produce and
no remedial possibilities exist. We propose to T.A. well by
setting a 4½" 11.6# CIBP at approximately 7075' and loading
casing with treated fresh water. Hold well for possible Gray-
burg Jackson waterflood recompletion.
