13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is Devons intent to further evaluate and develop the Seven Rivers interval for additional exploitation potential. Devon requests that in lieu of permanently plugging this well that the wellbore be allowed to remain in a temporarily abandoned status prior to utilization of the wellbore as a Seven Rivers producer or injection well. Plugging this well would possibly necessitate it being re-drilled at a future date.

A "Mechanical Integrity Test" on this well was witnessed by the BLM on 1/24/98.
