DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On June 1, 1957 a Four-Point Back Pressure Test was taken indicating an Absolute Open Flow of 380,000 CFGB. It is our intention to sell this gas to Frontier Natural Gasoline Company.

*This well is now being changed and completed as a gas well shut in.*

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
