17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was temporarily abandoned in January, 1966 and was abandoned because it had reached the economic limit.

We are set up to recomplete in the Grayburg San Andres on Berry Federal A-4 and, if successful, we will follow with a recompletion proposal on the Graridge Federal Tract 2, Well #2. This work should be completed within the next 6-9 months.
