17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We propose to run a cement bond log and perforate from approximately 3162' - 3171' and 3193' - 3196'. We will probably frac each zone separately using gelled water and approximately 20,000# sand per zone.
