OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

Oil Cons. Comm.
Artesia Office

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

County.

The dates of this work were as follows: September, 2, 29, 30, 1949

Notice of intention to do the work was (was not) submitted on Form C-102 on _____ 19____

and approval of the proposed plan was (was not) obtained. (Cross out incorrect words.) **(Verbal approval)**

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

On September, 2, 1949 hole was filled with mud from total depth of 1889' to 1050' and cement plug was run from 1050' to 1020', this plug covers area below casing seat and up in 8" casing. On September 29, 30, 1949 hole was filled with heavy commercial mud from 1020' to surface. The 8" casing was knocked off below coupling at 715' and this amount of casing recovered. Tubing was run and 15 sack cement plug was run in and above top of 8" pipe left in hole, this plug was run from 730' to 700'. Tubing was pulled up hole and a 30 sack cement plug spotted at 640' to 595' by Halliburton. Cement plug and pipe marker was set at surface.

Title

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for ensuring transparency and accountability in financial operations. This section also highlights the role of internal controls in preventing fraud and errors.

2. The second part of the document focuses on the implementation of a robust risk management framework. It outlines the various risks that an organization may face, including financial, operational, and reputational risks. The document provides a detailed description of the risk assessment process, which involves identifying, analyzing, and evaluating risks to determine their potential impact on the organization's objectives.

3. The third part of the document addresses the need for a strong corporate governance structure. It discusses the responsibilities of the board of directors and senior management in ensuring that the organization operates in a fair, ethical, and transparent manner. The document also highlights the importance of regular communication and reporting to stakeholders to maintain their confidence in the organization.

4. The fourth part of the document discusses the importance of a strong financial management system. It outlines the key components of a financial management system, including budgeting, forecasting, and financial reporting. The document also provides a detailed description of the financial reporting process, which involves the collection, analysis, and presentation of financial data to management and stakeholders.

5. The fifth part of the document discusses the importance of a strong human resources management system. It outlines the key components of a human resources management system, including recruitment, training, and performance management. The document also provides a detailed description of the human resources management process, which involves the identification, development, and retention of a high-quality workforce.

6. The sixth part of the document discusses the importance of a strong information technology management system. It outlines the key components of an information technology management system, including hardware, software, and data management. The document also provides a detailed description of the information technology management process, which involves the selection, implementation, and maintenance of information technology systems to support the organization's operations.

7. The seventh part of the document discusses the importance of a strong legal and compliance management system. It outlines the key components of a legal and compliance management system, including legal counsel, regulatory compliance, and contract management. The document also provides a detailed description of the legal and compliance management process, which involves the identification, assessment, and mitigation of legal and compliance risks.

8. The eighth part of the document discusses the importance of a strong environmental, social, and governance (ESG) management system. It outlines the key components of an ESG management system, including environmental protection, social responsibility, and governance. The document also provides a detailed description of the ESG management process, which involves the identification, assessment, and mitigation of ESG risks to enhance the organization's reputation and long-term sustainability.

9. The ninth part of the document discusses the importance of a strong crisis management system. It outlines the key components of a crisis management system, including crisis identification, crisis response, and crisis recovery. The document also provides a detailed description of the crisis management process, which involves the development of a crisis management plan and the implementation of that plan in the event of a crisis.

10. The tenth part of the document discusses the importance of a strong strategic management system. It outlines the key components of a strategic management system, including strategic planning, implementation, and evaluation. The document also provides a detailed description of the strategic management process, which involves the identification of the organization's long-term goals and the development of a strategy to achieve those goals.
