Re: State OG-16 #1 NE SW
10-19S-29E

Gentlemen:

The enclosed Form C-105 on the subject well is being returned for some additional information. Please fill in the Formation Record and the Formation Tops on the back of this form, and on the front of it fill in item #21 and check item #32. Also six copies are required and we only received three.

Very truly yours,

OIL CONSERVATION COMMISSION

W. A. Gressett
Supervisor, District No. II

1. Introduction

The purpose of this study is to investigate the effects of various factors on the performance of a specific task. The study is designed to provide a comprehensive overview of the current state of research in this area.

The study is organized as follows: Section 2 discusses the theoretical background, while Section 3 describes the methodology used in the study.

Section 4 presents the results of the study, and Section 5 discusses the implications of the findings.

The study is based on a review of the literature and a series of experiments. The results of the experiments are presented in Section 4. The study is limited to the specific task and conditions described in the methodology section.

The study is limited to the specific task and conditions described in the methodology section. The results of the study are presented in Section 4. The study is limited to the specific task and conditions described in the methodology section.

2. Methodology

The study was conducted using a series of experiments.

3. Results

The results of the study are presented in this section.

The study is limited to the specific task and conditions described in the methodology section.
