O Dear Sir:

Please find enclosed herewith your approved copy of Form C-102 Notice of Intention to Drill Deeper for the above mentioned well.

P At this point I should like to point out that our Commission files on this well reflect a total depth of 6020 feet on form C-105 well record submitted by Richfield Oil Corporation on April 21, 1947, and on August 27, 1951 you filed form C-102 Notice of change of operator and also Notice of Intention to Drill Deeper to 7500 feet which is the last report received on this well, and I note that the old total depth is now 7838 ft. as set out on your form C-102.

Y As such time as this well is completed we will need a log and record of Drill Stem Tests from 6020 feet, to total depth.

Also, file your reports for Eddy County operations with the Artesia office of Oil Conservation Commission rather than Hobbs, and you will avoid some delay in getting approval. I will appreciate your cooperation in regard to the matters as set out in this letter.

Very truly yours,

Oil Conservation Commission
