DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill the well for oil and/or gas to a total depth of 1500 feet.

We propose to run 300'-10" casing.

In event of production will run production string and cement same as required.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
