Re: Hanagan Petroleum Corporation #1-D Teepee State, NW1/4NW1/4 Sec. 32
T-21-S, R-24-E, Eddy County, New Mexico. Our Prop. #118

Dear Mr. Smith:

Under date of January 28, 1964, you furnished Nolan H. Brunson, Jr. with a letter containing a schedule of the deadweight pressure tests to be conducted on the above captioned well. We have since secured approval from the New Mexico Oil Conservation Commission to reduce the number of remaining tests from six to three. Would you therefore please conduct the tests as per your schedule of January 28, 1964 and report same to me as we have been doing in the past, in the months of September, November, and January, 1965. In other words, we would be eliminating the tests as scheduled on August 24, October 26, and December 28.

Unless otherwise notified by you, we desire a test to be conducted on September 28, November 23, and January 25, 1965.

Very truly yours,
Hanagan Petroleum Corporation
