(Dual Completions)

RECEIVED

STATE OF New Mexico)
County of Lea) ss

MAR 9 1973

G. F. Blount, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Hanagan Petroleum Corp. in the capacity of Consultant and as such is its authorized agent.

That on July 13, 1972, he personally supervised the setting of a Otis Permalatch in Hanagan Petroleum Corporation's
(Make and Type of Packer) (Operator)

Catclaw Draw Well No. 3, located in Unit
(lease)
Letter D, Section 36, Township 21S, Range 25E, NMPM,
Eddy County, New Mexico.

That said packer was set at a subsurface depth of 10,409 feet, said depth measurement having been furnished by tubing tally.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

Hanagan Petroleum Corporation
