Gentlemen:

Be advised that the subject well has been shut in effective June 21, 1974, because of a sudden high water cut.

There is a possibility that this water is coming around a cast iron bridge plug set at 10,940'. In view of this possibility, we intend to dump cement on the bridge plug while the well is in a static condition.

You will be advised of the results.

Yours very truly,

A handwritten signature in dark ink, appearing to read 'B. J. G. Edmonds', is written over the typed name and title.
